PROGRESS REPORT – WATER SUPPLY

Under Article 17 of the March 8, 1966 Town Meeting, the Voters of the Town authorized the Selectmen to make application to any State or Federal Agency for any grants or other assistance for aid in defraying the cost of planning regarding the Town's water supply.

After various meetings and correspondence with the various State Agencies (Health & Welfare, Water Resources, Soil Conservation Service, Water Pollution, Dept. of Resources & Economic Development) it was determined that there are no funds available at the State level for either planning or construction of municipal water systems.

The New Hampshire Water Pollution Commission recommended that the Town engage the services of a consulting engineer to evaluate and plan for an additional water supply and to apply to the Federal Government for funds. Programs of this type are handled by either the Department of Housing and Urban Development, Public Works and Economic Development Administration or the Farmers Home Administration. Grants can be made to cover up to 50% of the cost of construction.

In September, a "Preliminary Inquiry Concerning Water Projects" was prepared and submitted to the Farmers Home Administration. This Inquiry makes the rounds of the various Federal Agencies for the purpose of deciding which Agency, if any, will provide assistance. Both the Economic Development Administration and the Department of Housing and Urban Development indicated that no aid would be forthcoming from those departments and the Inquiry was returned to the Farmers Home Administration.

A letter from the Department of Housing and Urban Development states as follows: "We regret to inform you that your proposed project has been determined ineligible for a water and sewer grant. This determination is based upon the fact that a comprehensive planning program for your municipality does not exist. We would remind you that both comprehensive planning and water and sewer

planning, programming and coordination activities are required to be underway."

This means that we must proceed at once to get a planning program underway in order to be eligible for federal assistance regarding an additional water supply and sewage treatment facilities.

With this in mind, an article has been inserted in the warrant asking for an appropriation of $3,425.00 as the Town's share (25%) of the total estimated cost of a planning program. The Federal Government will provide the remaining 75%. These funds will be used to engage a professional planning firm.

DANA R. KINGSTON

PROGRESS REPORT
SEWAGE TREATMENT FACILITIES

Under article 21 of the March 8, 1966 Town Meeting, the Voters of the Town authorized the Selectmen to file, on behalf of the Town, an application for an advance in the amount of $383,000 to be made by the United States to the Town to aid in defraying the cost of FINAL PLAN preparation for Sewage Treatment Facilities.

This application, in the amount of $383,000, was submitted on April 29 to the Department of Housing and Urban Development. The application was rejected at that time for the following reason: "Requests for planning assistance far exceed available funds and in order to allocate these funds on an equitable basis, the Department has found it necessary to limit the size of individual planning advances to $125,000. If you can plan a feasible project within the $125,000 limitation, we will be glad to accept an application."

Due to the limitation of funds, it was necessary to reduce the program on an interim basis as part of a stage construction program. Subsequently, in May, an application was submitted in the amount of $108,000. This application was accepted for reviewal. There has been con-

siderable correspondence between the Town and the Department but as of this time, approval of the application has not been received. One reason the Department has given for withholding approval of the application is the Town's lack of a comprehensive plan, including water and sewer planning. Anticipating this problem, the Board of Selectmen, in March, appointed a five member planning commission to work with the State Planning Commission. I think with the cooperation of the State Planning Director, this obstacle can be overcome to the satisfaction of the Town.

In October, both Senator McIntyre and Congressman Cleveland were contacted and asked to follow up on the application. In both instances, replies came back that the Department has more applications on file than available funds.

In May, a decision was made by the Board of Selectmen and the project engineers, Anderson-Nichols Co., to prepare and submit an application for CONSTRUCTION FUNDS at once instead of waiting until the application for FINAL PLANNING was approved and the funds became available. This proved to be a very wise decision as approval of the FINAL PLANNING application is still pending.

Subsequently, on May 31, an application for CONSTRUCTION FUNDS in the amount of $4,272,000 was submitted to the Economic Development Administration. The application was accepted for reviewal. One direct result of the review was a request by the Economic Development Administration that the Town submit an additional application for CONSTRUCTION FUNDS under Public Law 660 through the Federal Water Pollution Control Administration. The reason for the request being that $4,272,000 was a considerable sum to be allocated to one town from the funds available. Also, if the $4,272,000 could be reduced, the application would receive a more favorable recommendation.

To comply with this request, an application in the amount of $1,200,000 was prepared and submitted on No-

vember 4, 1966 to the Federal Water Pollution Control Administration. On December 12, 1966, the Town was notified that the Project met the Federal requirements and a grant offer in the amount of $1,200,000 was made to, and accepted by, the Town.

We are in the process at this time of amending our application submitted to the Economic Development Administration. As stated above, the original amount of this application was $4,272,000. This application will be reduced to approximately $3,072,000.

The total cost of the Project is estimated to be $8,544,000. The Town is eligible to receive 50% of the cost from Federal sources and 40% from the State of New Hampshire leaving 10% as the local share.

All of the above applications have been submitted through the New Hampshire Water Pollution Commission and have been approved by that Agency with their recommendation to the various Federal Agencies that our Project be given the highest priority rating with regards to other projects within the State.

INTRODUCTION TO TOWN PLANNING

A. Objectives of Planning

1. Economic

a. Efficiency of land use and street pattern – Mixed land use has a tendency to depreciate property values and create blight. Inefficient street patterns and design can increase town road maintenance costs and traffic hazards.

b. Preservation or enhancement of economic base – What type of community do you have?

1. Recreational – Is your town geared toward the tourist business?
2. Industrial – Are there land, community facilities and labor supply available for future industrial expansion?
3. Commercial – Is your community a regional shopping center?
4. Institutional – Are the main activities of your town centered around a college or other type of institution?
5. Residential – Is your community primarily residential, a bedroom for a nearby city?
6. Agricultural – Is your town mostly rural, centered around farming activities?

Possibly your community is all of these. If so, where and how do you want it to develop?

2. Social

Adequate provision for human needs; work, home and play. Your aim should be to provide a good living environment with social, educational and recreational opportunities for everyone.

3. Physical

Sound land use planning – Encourages a proper distribution and density of population, to avoid health, safety and fire hazards. Encourages a land use pattern, where different types of land use are compatible. Encourages a local street system that efficiently ties in with the regional and state systems. Encourages the preservation of scenic and historic areas.

B. Major Phases of the Planning Process

1. Survey and Analysis

Collection and analysis of data relating to physical, economic and social conditions.

a. Base Maps – Good base maps showing streets, water bodies and other physical features.

b. Economic Base – Data on employment and business areas and trends.

c. Land Use Survey – Maps showing the location and type of each existing land use.

d. Population Survey – Maps, graphs, and charts showing population growth, composition and distribution.

e. Housing Survey – Information on the availability, quanity and condition of housing.

f. Survey of Street System – The classification of street by type, width, and condition.

g. Survey of Public Facilities – The location, type and condition of schools, parks, playgrounds, libraries, fire stations and other public buildings.

h. Survey of Utilities – The location, type and condition of water and sewer systems.

i. Survey of Topographic and Soil Conditions – Maps indicating the degree of slope of the land and the type of soil. Used to determine the suitability of land development.

2. Planning Preparation

a. Land Use Plan – Determination of areas suitable for present and future intensive use (residence, business, industry, institutions, etc.) and non-intensive uses (agriculture, woodland, park, recreation, etc.)

b. Street and Traffic Circulation Plan – Recommendations for new streets, street widenings, intersection design and off-street parking.

c. Community Facilities Plan – A recommended plan for the development of community facilities – schools, parks, playgrounds and other community facilities.

d. Public Utility Plan – A recommended plan for the expansion and improvement of public utilities – water, sewer systems, etc.

e. Financial Programming – A recommended financial program for community improvements based on the ability of all the community to pay.

f. Comprehensive Plan – Compilation of all the elements of the survey and analysis, planning preparation and recommendations. The plan should be flexible and continually brought up to date.

PUBLIC HEALTH NURSE'S REPORT

DISTRICT NO. 2

During 1966, 109 visits were made in the community, and they are classified as follows:

Administration and Promotion	25
Antepartum	1
Cardiac	1
Crippled Children's Service	20
Health Supervision	30
Mental Health	4
Mental Retardation	1
School	21
Sight Conservation	1
Tuberculosis	4
Lead Poisoning	1

Twenty-five children have attended the Crippled Children's Clinics, and eleven children have attended the Pediatric Cardiology Clinics.

One hundred ninety seven individuals participated in the Heaf testing program for the detection of tuberculosis. One thousand one hundred twenty six immunizations were given at the Spring Clinics. One hundred sixty nine children received Measles immunizations at a special clinic.

There is a crucial need at this time, for communities to develop an over-all plan that will insure continuity of nursing service from the hospital to the home, or from the home to the hospital.

Nursing is one of the essential services in any community health plan or program.

The citizens in any community or area, have a direct responsibility, therefore, to make sure that needed continued nursing care is provided for men, women and children as they move to any place where care may be given.

Each community needs to develop or improve a community centered or area centered plan, which will enable its citizens to have better or more complete nursing care available to them and their families when needed.

How many of your citizens who should be receiving benefits from the Medicare Program are unable to do so because you, do not have a community centered or area centered plan to meet their needs?

Now, is the time for action by all citizens of your community.

It is always a pleasure to serve the Citizens of Northumberland, and I extend my gratitude to them for their cooperation during the past year.

Respectfully submitted,

ELEANOR D. KENNEY, R.N.
Public Health Nurse, District 2
N. H. State Department of Health

Program of the White Mountains Region Association 1966 (29th year)

Printed and distributed more than 300,000 folders and booklets promoting the White Mountains Region.

Received and answered 15,000 individual inquiries which represents an increase of more than one hundred per cent over last year.

Wrote sixteen news releases for the use of local media and five newsletters to the members, promoting economic development ideas in the region.

Supported the 4-H awards program to encourage development of agriculture.

Assisted in programs of natural beauty and good land-use practices.

Presently are initiating a program of ski area engineering research to combat the snow erosion problems at ski areas.

Worked in cooperation with many other groups working to promote the economy of the White Mountains Region and the State of New Hampshire.

TOTALS	$165,642.61	$163,510.45	$165,042.61	$168,996.35

Article 9. To see if the Town will vote to raise and appropriate the sum of Five Hundred Four Dollars ($504) to change two existing 1,000 lumen incandescent street lights to 3,500 lumen mercury vapor street lights, and to install ten additional 3,500 lumen mercury vapor street lights on U.S. Route 3, south. Beginning at the Boston and Maine R.R. crossing at the south end of Riverside Drive, south to the Boston and Maine R.R. crossing opposite the Cemetery. (Inserted on petition of 23 voters)

Article 10. To see if the Town will vote to raise and appropriate the sum of One Hundred Two Dollars ($102) to install two street lights in the Village of Northumberland. One to be located at the intersection of U.S. Route 3 and the northerly entrance to the Village and the other to be located half way between said light and the residence of Rex York. (Inserted on petition of 11 voters)

Article 11. To see if the Town will vote to raise and appropriate the sum of One Thousand Dollars ($1,000) to prepare Graham Street for paving.

Article 12. To see if the Town will vote to raise and appropriate the sum of One Thousand Dollars ($1,000) for the North Country Community Services, Inc.

Article 13. To see if the Town will vote to raise and appropriate the sum of Thirteen Hundred Dollars ($1,300) to replace the existing one inch galvanized water line from the intersection of Cottage and First Streets, north to the property of Charles Boucher, a distance of approximately 320 feet. The new line to be six inch cast iron.

Article 14. To see if the Town will vote to raise and appropriate the sum of Seven Hundred Dollars ($700) to extend the water line on the upper end of First Street from the Charles Boucher property on the south to the Thomas Covell property on the north, a distance of approximately 160 feet. (Inserted on petition of 10 voters)

Article 15. To see if the Town will vote to raise and appropriate the sum of Sixty-five Hundred Dollars ($6,500) to replace the existing 4″ and 2″ water line in the Village of Northumberland with a 6″ line. Beginning on the north where the 8″ main line crosses U.S. Route 3 opposite the old Boston and Maine R.R. station, thence south for a distance of approximately 2,600 feet, ending at the property of Earl Livingston.

Article 16. To see if the Town will vote to raise and appropriate the sum of Forty-six Hundred Dollars ($4,600) to extend the six inch water line on U.S. Route 3 from the present end near the Boston and Maine R.R. crossing opposite the Cemetery. Proceeding south for a distance of approximately 1,800 feet, ending at the property of Paul Wilkinson. (Inserted on petition of 11 voters)

Article 17. To see if the Town will vote to raise and appropriate the sum of Fifty-one Hundred Dollars ($5,100) to purchase a new sidewalk plow equipped with reversible blade.

Article 18. To see if the Town will vote to raise and appropriate the sum of Five Hundred Forty-five Dollars ($545) to purchase a new sidewalk sander.

Article 19. To see if the Town will vote to instruct the Selectmen to give the North Country T.V. Cable, Inc. a reasonable period of time in which to improve local television reception of its subscribers. Said period

SCHOOL REPORT
SCHOOL WARRANT
State of New Hampshire

To the inhabitants of the School District of Northumberland qualified to vote in district affairs:

You are hereby notified to meet in Groveton High School Gymnasium in said district on Saturday, March 11, 1967, at 2:00 o'clock in the afternoon to act upon the subjects hereinafter mentioned. The polls will be open at said place and date from 2:00 o'clock in the afternoon until 5:00 o'clock in the afternoon for the reception of your ballots under the non-partisan ballot system; furthermore you are hereby warned that on said date and place, at 2:30 o'clock in the afternoon the matters of appropriations and such other business properly coming before said meeting will be taken up for your consideration and action.

1. To choose by non-partisan ballot the following district officers for the ensuing year; a moderator, a district clerk, a district treasurer, two auditors, and a member of the school board for the ensuing three years.
2. To hear reports of agents, auditors, committees, or officers heretofore chosen and pass any vote relating thereto.
3. To see what sum of money the District will vote to raise and appropriate for the support of schools, for the payments of salaries for school district officials and agents and for the payment of statutory obligations of the district.
4. To transact any other business that may lawfully come before said meeting.

Given under our hands at said Northumberland this 24th day of February, 1967.

HAROLD E. MARSHALL, Chairman
F. LYNWOOD SHOFF
DEAN TILLOTSON
School Board

A true copy of Warrant—Attest:

DEAN TILLOTSON

REPORT OF THE TREASURER

For the Fiscal Year Ended June 30, 1966

Summary

Cash on Hand, July 1, 1965		$ 4,043.98
Received from Selectmen:		
Current Appropriation	270,742.18	
Revenue from State Sources	17,700.35	
Revenue from Federal Sources	11,236.38	
Received from Tuitions	27,862.30	
Received from all Other Sources	1,272.73	
		328,813.94
Total Amount Available for Fiscal Year		332,857.92
Less School Board Orders Paid		332,791.22
Balance on Hand, June 30, 1966		$ 66.70

Respectfully submitted,

STANFORD JOHNSON,
District Treasurer

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the School District of Northumberland of which the above is a true summary for the fiscal year ending June 30, 1966 and find them correct in all respects.

Respectfully submitted,

RAYMOND HURLBUTT
JOHN SULLIVAN

REPORT OF THE SUPERINTENDENT OF SCHOOLS

It is my pleasure to be able to give the good citizens of Groveton our annual school report. As you have heard us say many times, we have a rather ambitious educational program in our schools. We have referred to this as our five year plan and this is our fourth year in operation and we have set lofty goals both for our academic program as well as refurbishing and bringing our physical plants up-to-date. We have always been very cognizant of the high cost of education and with this in mind have utilized this five year plan so that the taxpayers would not be over the so called barrel. No one enjoys or looks forward to paying exorbitant tax bills and we have tried to keep this in mind so that the cost could be spread out over a period of some years. Hopefully, we can realize our educational goals within this five year period.

Our general philosophy has been and will continue to be to first of all establish an outstanding foundation for our students. This foundation, of course, is the laying out of the Elementary School program for without a strong curriculum and a qualified competent staff you can build a palace and hire all Doctors to permeate your program but it will be of no avail for the students will not have had the needed academic background to fulfill the obligations that will be heaped upon them and expected of them when they graduate from the Elementary to the Secondary level. With this in mind, we have been in a continual state of evaluation and curriculum anaylsis. We feel we have extremely competent and qualified teachers in both Elementary and Secondary levels. All of our teachers are duly certified and are teaching in their area of specialty.

We have made many inroads regarding curriculum development in the Elementary School. We have had study groups and are currently working on a Self-Evaluation regarding our curriculum. It is not enough to develop curriculum just for the Elementary, but this curriculum must be correlated in every subject area with the curriculum at the High School or Secondary level. With this in mind, we have had for the last year meetings with the Elementary

and Secondary faculties to exchange and interchange ideas, philosophies and curriculum materials. We now have completely correlated our subject matter areas Elementary versus High School. To perpetuate this, we have had a series of Workshops at which time we have had outstanding consultants in their respective fields. The general philosophical approach to a Workshop is the bringing of a person who is considered to be an expert in a special area and having that particular person give his general philosophy regarding the subject, then having an interchange of ideas from a panel of teacher participants and to find out what we are doing, to share mutual experiences and to compare notes utilizing some of the good things that are being done in other situations in other schools and implementing these changes if it warrants. There are many outstanding schools systems in the United States and there are many schools who implement change just for the sake of change, but this is not the Board or administrative philosophy in Groveton. If there is a need for a change and this change greatly enhances and benefits our educational philosophy and it is apropos and will fit into our situation, we will be most happy to study same, but to make change just for the sake of change is not what we are looking for.

With this in mind, we scheduled last year a series of four Workshops with released time for the faculty to attend same. These were attended by surrounding school districts and, also, by State Department of Education representatives and college representatives. The first Workshop was held in Groveton and was in Mathematics with Dr. Paniccia being the coordinator for the High School and Thomas Monohan the Elementary Grades. The second Workshop was held January 12, at North Stratford and English was the main topic of discussion. Mrs. Nugent was the Elementary coordinator and Miss Duffin the Secondary coordinator. March 9, the Science Workshop took place in Groveton. Mrs. Helen Boswell was the Elementary coordinator and Hollis Sawyer Secondary coordinator. The Language and Social Studies Workshop were held at Groveton. Mrs. O'Brien championed the Language area. Mrs. Covieo was responsible for the Elementary Social Studies and Donald Dimick, Department Chairman, headed

the Secondary Social Studies Workshop. In all Workshops, we had outside consultants to assist us in the planning, implementing and carrying out of the respective Workshops. We were extremely pleased with the results of these Workshops and comments and letters we received regarding same. It is to be noted that we had teachers attending all of our Workshops from the various North Country Supervisory Unions. At one of the Workshops in English on the I.T.A. or Initial Teaching Alphabet, we had a representative from Plymouth College and administrator representatives from other Unions in attendance and Plymouth is contemplating incorporating an I.T.A. Course to train teachers in this particular area. We are the only one in New Hampshire to initiate this I.T.A. program.

It is our feeling that Workshops are of extreme value. However, we, also, feel there is a great necessity to give our faculty released time to study and visit other schools or institutions or attend seminars in state or out of state Workshops in their respective curriculum areas. With this in mind, we have set up a program to give released time so that our teachers may attend the seminars for curriculum development and then every other year we plan to sponsor a Workshop such as we had last year. It is to be noted that Supervisory Union #58 was the original pioneer in these Workshops in the North Country.

As is our usual practice, I should like to give individual summations covering the Elementary area, Secondary area and Guidance.

This year we have implemented the educational television media for Grades 4, 5, and 6. We have provided six TV sets for the school, also, there are special programs that the lower Grades 2 and 3 are exposed to from time to time when programs are available.

Remedial Reading was implemented this year under Title I. Individual reading and phonics surveys were given to each child. By having a specialist doing this, small group instruction was made possible. This was primarily geared to the Elementary. However, for students in the Junior High School who had reading deficiencies these students

were included, also, in a remedial program. It was, also, possible in some individual cases to offer a program just for one student with a teacher who works specifically with this one person. We followed this up with parent and teacher conferences and then they were given diagnostic and achievement tests.

Last year for the first time we offered Physical Education in a supervised and controlled program. This was implemented by the Elementary School Principal who coordinates with each individual classroom. We were very fortunate in having the cooperation of Father Dupont who allowed us to use the splendid St. Francis Hall. We have purchased portable equipment which we have utilized and, also, we have implemented a complete Physical Fitness Test which will be given periodically to the students so we may compare the progress of our student body. In this program we have included rhythmic activities, games, running jumping, climbing and stretching exercises, square dances, individual skills, soccer, basketball, etc. To further implement this program Mr. Monohan was in charge of what we might call an athletic farm system comprising students of the 5th, 6th, 7th, and 8th Grades in team competitive sports. These areas covered were soccer, basketball, and baseball. We feel that these activities are very important for our future athletes for it prepares our students for the varsity programs on the High School level. It, also, increases agility and body coordination which is necessary in everyday life as well as preparing them for interscholastic sports. We certainly want to bring special notice and commendations to Father Lucien Dupont for his continued cooperation in allowing us to use his facility for our Physical Education classes and for his cooperation in the recreation program for our young people of the town.

The Library is in full swing with parents and High School students forming a nucleus of volunteer helpers and workers. Each child now has a minimum of one period a week in the Library. Our heartfelt thanks are given to the untiring efforts of our women folk who share in this Library experience and, also, come into our classrooms and give special reading interpretations. We have published a com-

plete library book inventory which is available to all of our teachers so they may use this for resource and research classroom work. We have now completed a card catalog system so that references may be ascertained from the available books.

We have established ability grouping in the following areas. The 5th and 6th Grades, all areas, are grouped according to academic ability. In the 4th Grade we have groupings in Reading and Mathematics and in the 3rd Grade groupings in Language Arts and Reading.

We were very fortunate in being able to employ a full-time secretary which relieved the principal of a myriad of secretarial duties and responsibilities.

The newly established Rinehart Handwriting System is paying off large dividends. The value of this system is that everyone now has a definite pattern to follow regarding the proper handwriting techniques and methods Grades 1 through 6.

New audio-visual equipment has been added which is being utilized throughout the school.

The next area we would like to refer to is Guidance. As you know, we are most fortunate in being able to have the services of John Nay who has some eight years' experience in Guidance from Brewster Academy. Mr. Nay has given us the needed stability and experience to further inculcate our Guidance philosophies and aims. The main responsibility of our Guidance Department is to concentrate on personal counseling, educational planning, dissemination of occupational information, testing, and teacher student parent conferences. It is of the utmost importance that the Guidance Director know the needs, abilities and aptitudes of our student body so he might efficiently carry out his program. This information is shared with the faculty and the administration so that both the faculty and administration can know the backgrounds, ability levels and aptitudes of their respective students. This helps immeasureably in better understanding the student so the teachers and administration can know what to expect from these

people. It is, also, of the utmost importance that the Guidance Director explore with the students occupational information and to be able to assist the student in occupational careers and projects of filling his educational goals through the media of college, technical schools or services. The testing program is invaluable so we might measure each student's potential then using this information to determine the course of his future life along with teacher recommendations, student and parent interest. The Guidance Director must always be available to the students when they need him for consultation. This might be their academic problems, social problems, personal problems, etc. He is the person that the students should and must look to for guidance. It, also, falls upon the Guidance Director to study the availability of various scholarships that are offered from time to time so that our students might be encouraged to partake of these various financial assists.

Regarding the High School, they are beginning to get the materials ready for their Evaluation and Accredidation which comes up in 1969. They will be going through the Self-Evaluation analysis in preparation for this Evaluation. This year has seen many inroads in preparation for this Evaluation. This year has seen many inroads regarding curriculum enrichment. We established and equipped a Mechanical Drawing room with up-to-date and modern equipment second to none. The reason for this Mechanical Drawing program is quite evident. It is my feeling we should do all we can for all of our students, not just the college bound or terminal, but we have equal responsibility to both. In lieu of this, we have started a Mechanical Drawing program. This program is designed for the college bound student especially a student who is contemplating going into the engineering field for here, of course, he will need this and on the same par this Course is designed for students who will probably not be going on to college, but with a background in Mechanical Drawing geared to the needs of a special industry, he will be much better equipped to get a job right from school. We are trying to set up our curriculum to meet these anticipated needs. We, also, added a Course in Metals. We were able to get some of the equip-

ment for this, as an example, a milling machine from the surplus in Concord and we purchased other pieces of equipment necessary to implement a comprehensive metals program. We added a new circle saw, rearranged the Shop so we have a separate area for welding, a separate area with ventilation for painting with fume hood and an increased area for shop project storage.

Through Dr. Paniccia's efforts we have now a select group in advance placement in the Mathematics field, namely calculus and trig.

We are involved in the new Science programs and Biology, P.S.S.C. Course in Physics and Chem Study program in Chemistry. It must be clearly understood that we not only have the new Science programs, but we, also, have the traditional programs, thus meeting the needs of all of our students. Also, we are able to have three tracks or groupings in English Grades 7 through 9. Each subject area is in the process of developing Course Outlines and Courses of Study. Again, this by correlating with the Elementary Grade School. We were, also, able to offer a large group instruction class for Biology. We have expanded the Library facilities to allow room for more books. New stacks were ordered. We have a completely correlated Modern Math program Grades 1 through 12. This year saw the expansion of the Business Education Department. New machines have been added, additional typewriters and stations, so that our students upon graduating will not only be equally prepared, but we hope in some cases better prepared to take a position than other students from competitive high schools. This year saw the advent of a new student handbook. Next year, we hope to further implement this to include a Code of Ethics, mode of attire, etc. This will be a joint operation emanating from the administration to teachers to student council to student body for their acceptance. We are presently working on a team teaching unit to correlate the various areas of History, English, Music and Art.

Regarding the physical plant, every floor in the school has now been sanded, sealed, varnished and waxed. We

have, also, completed the paneling of the hallways. We have added one new classroom of furniture.

Our teachers have been very active in attending professional conferences, taking Courses during the summer and generally upgrading their academic standings.

It was the feeling of the administration and the Guidance Department that we should like to know how our Groveton students are accepted in higher education and in occupations. We wanted to receive first hand information from graduates as to the preparation they received while at Groveton, what things could be improved upon, where were our strengths and, of course, some of our weaknesses. We feel, also, that we should like to know how our students were doing in industry and various avocations. With this in mind, the administration met with the titular heads, presidents of universties, colleges, administrative officers, deans of admission, etc. with a survey to ascertain how our students were doing and again how were they prepared. We got the complete cooperation and assistance of all these people plus the blessings of the Commissioner of Education. We further studied the situation by discussing this survey with members of industry to get their reactions. The result of this has been the formulation of a survey which will be implemented sometime in 1967 and will go to every student who attended the Groveton Schools for the last six years. A composite and profile will be made. When the results are all tabulated it should give us a very good depiction and indication of how our students have been and are doing since they left Groveton. We feel this will give us a very clear depiction of our strength and weaknesses and we can zero in on some of the areas that need attention. This is a cooperative venture and has been aired to the students, faculty and administration alike. This along with the college board results and the various accrediting groups such as the New England Association of Colleges and Secondary Schools and State Department of Education will let us know how Groveton is doing. This again is a Groveton first in the state.

Again, may we encourage the visitation of any and all Groveton people to see our schools in action. We think we

are doing many fine things. We are gradually building a name for Groveton in the educational field and circle. We have a very fine student body. They are most cooperative and this, of course, reflects on the fine upbringing that you are giving your children and your interest in education is commendable. We do feel, however, that the local citizenry doesn't get into the schools enough. Your students are proud of what they are doing. Our teachers are proud and we know you are proud because you support our budget, but we would like to talk to you and show you what your tax dollars are being used for. They are your schools and we want you to be as proud of them as we are,that is why we like to show them off. We have always considered our schools based on the premise of an, "Open door policy." You are welcome at any and all times.

Respectfully submitted,

LINWOOD E. CLARKE,
Superintendent of Schools

REPORT OF THE SCHOOL NURSE

300 Students had scalp and hair inspections
34 Checked on for small pox vaccinations
726 Weighed and measured
259 Students in Grades 4-7-11 and all new students plus all known heart murmurs and all that participated in athletic activity had physical examinations.
601 Vision and Hearing tests were done and corrections made
246 First Aid treatments were given
221 Home visits were made
Contagious diseases during the school year were:

Measles	6
Impetigo	11
Mumps	4
Pink eye	2

120 Students in the first three grades received measles vaccine
90 Had Triple Toxoid immunization
44 Had Trivalent Oral Polio vaccine
52 Preschool children received physical examinations and Trivalent Polio vaccine
194 Had the Heaf test for tuberculosis
21 Were checked by x-ray
41 Teachers received Flu vaccine
Special referrals and Clinics:
Mental hygiene—3
Lancaster Cardiac Clinic—5
Orthopedic Clinic, Berlin—15
Orthopedic Clinic, Hanover—4
Physical Theraphy—7
Plastic surgery Clinic, Hanover—1
Dental Clinic—
Inspected—291
Treated—195
Speech Theraphy, Whitefield—1

I wish to thank all school personnel, also the doctors, and people for their cooperation. The willing help that I received at all the various clinics was much appreciated.

Respectfully submitted,
WILETTA LURVEY, R. N.

GRADE PLACEMENT CHART—September, 1966

Elementary Building — ARNOLD J. ADREANI, Principal

Grades	1	2	3	4	5	6	Total
Roma Nay	16						16
Estella Sullivan	16						16

GRADUATION—June 12, 1968

SCHOOL YEAR—181 Days

(If we do not use the one extra day, school will close June 13, 1968)

MARRIAGES REGISTERED IN THE TOWN OF NORTHUMBERLAND
For the Year Ending December 31, 1966

Date and Name and Surname of Groom and Bride	Residence of each at time of Marriage	Age	Occupation of Groom and Bride	Name of Official by Whom Married
January				
1 David Allan Rendahl	Minneapolis, Minn.	25	Insurance Advisor	Johannes M. Skarsten
Ruth Constance Martin	Groveton, N.H.	24	Insurance Actuarial	Lutheran Minister
29 Paul Leon Sargent	Stratford, N.H.	22	Laborer	Rev. M. Porter
Shirley Ann Robinson	Groveton, N.H.	17	At Home	Methodist Minister
February				
26 Mike M. Sullivan, Jr.	Groveton, N.H.	40	Retired, U.S. Navy	Rev. M. Porter
Colleen G. Ledger	Groveton, N.H.	40	Finisher, Papermill	Methodist Minister
March				
4 Robert D. Hawes	Groveton, N.H.	17	Marine Corps	Rev. M. Porter
Kathy A. Hibbard	Groveton, N.H.	14	Student	Methodist Minister
12 Dennis Beliveau	Groveton, N.H.	21	Laborer	Robert C. Rich
Shirley Ann Robinson	Groveton, N.H.	19	Clerk	Justice of the Peace
April				
16 Lawrence Eugene Tetreault	North Stratford, N.H.	23	Welder	Rev. Lucien Dupont
Diane Celia Dufour	Groveton, N.H.	19	At Home	Roman Catholic Priest
23 Glen Everett Allin	Stratford, N.H.	32	Millworker	Phyllis L. Benner
Helen Jean Hamlin	Groveton, N.H.	35	Waitress	Baptist Minister
30 Lavern Harry Thomas	Whitefield, N.H.	52	Beater Engineer	Rev. M. Porter
Merle Ella Conley	Whitefield, N.H.	51	Practical Nurse	Methodist Minister
May				
7 Dennis Reginald Charron	Groveton, N.H.	19	Army	Rev. Leo P. Gilbert
Louise Ann Platt	Groveton, N.H.	18	Student	Roman Catholic Priest
21 Ray Stanley Allen Drew	Northumberland, N.H.	23	Tree Surgeon	Rev. M. Porter
Mary Eunice Gonyer	Lancaster, N.H.	23	Unemployed	Methodist Minister
June				
4 George Lawrence Moran	Boston, Mass.	32	Maintenance	Rev. Lucien Dupont
Alberta Louise Rice	Boston, Mass.	25	Office Work	Roman Catholic Priest
25 Thomas William Kenney	St. Johnsbury, Vt.	23	Laborer	Rev. Lucien Dupont
Joan Vivian Miles	Groveton, N.H.	19	Beautician	Roman Catholic Priest

MARRIAGES (Continued)

August					
20	Michael Ralph Roy	Groveton, N.H.	23	Student	Rev. M. Porter
	Cheryl Charlene Platt	Groveton, N.H.	19	X-Ray Technician	Methodist Minister
27	Angelo John Panzieri	Auburn, N.H.	17	Construction	Rev. Lucien Dupont
	Sarah Anne Cass	Groveton, N.H.	16	At Home	Roman Catholic Priest
September					
3	Donald Howard Parker	Quincy, Mass.	30	Inspector	Rev. Lucien Dupont
	Trudy Ann Call	Groveton, N.H.	27	Key punch operator	Roman Catholic Priest
3	Wayne Paul Goulet	Groveton, N.H.	18	Millworker	Rev. Lucien Dupont
	June Louisia Gilcris	Groveton, N.H.	16	At Home	Roman Catholic Priest
10	Harland Roy Dunham	Groveton, N.H.	18	Army	Rev. M. Porter
	Charlotte Ann Sheltry	Groveton, N.H.	19	At Home	Methodist Minister
10	Gary Milton Rich	Milan, N.H.	21	Printer	Rev. M. Porter
	Deborah Jean Potter	Groveton, N.H.	18	At Home	Methodist Minister
17	Coakley Dennis Rooney	Berlin, N.H.	21	Construction	Rev. Lucien Dupont
	Sue Ann Jordan	Groveton, N.H.	19	At Home	Roman Catholic Priest
October					
15	Armand Leon Girouard	Berlin, N.H.	26	Millworker	Rev. Lucien Dupont
	Sheri Anne King	Groveton, N.H.	19	Millworker	Roman Catholic Priest
29	Eugene Arthur Parent	Littleton, N.H.	21	U.S. Army	Rev. Lucien Dupont
	Marilyn Jane Cassidy	Groveton, N.H.	20	Machine Operator	Roman Catholic Priest
November					
5	Denis Phillippe Renaud	Groveton, N.H.	18	Student	Rev. Lucien Dupont
	Peggy Ann Lang	Groveton, N.H.	18	Office Work	Roman Catholic Priest
19	Kenneth Vernon Wright	Groveton, N.H.	23	Laborer	Rev. M. Porter
	Betty Ann Potter	Bloomfield, Vt.	22	At home	Methodist Minister
26	Victor Edward Rich	Milan, N.H.	53	Conductor	Rev. M. Porter
	Eva Louise Potter	Groveton, N.H.	43	Secretary	Methodist Minister
December					
6	John Max Lecoq	Boston, Mass.	42	Real Estate Broker	Rev. M. Porter
	Linda Lee Brown	Boston, Mass.	25	Secretary	Methodist Minister
26	Robert James Ledger	Groveton, N.H.	20	U.S. Army	Rev. Lucien Dupont
	Caroline Anne Lavoie	Groveton, N.H.	18	Stitcher	Roman Catholic Priest

I hereby certify that the above return is correct, according to the best of my knowledge and belief.
